

All is Well: Heal Your Body with Medicine, Affirmation and Intuition

Structured around seven emotional centers, which mirror our chakra system, Louise and Mona Lisa examine the connections between these centers and the body. Drawing on years of research, they explore probable mental causes for the physical manifestation of illness associated with each center, and then lay out how to address these health concerns. Combining two complementary systems, Louise discusses new thought patterns and offers new affirmations to counteract specific emotional weaknesses, and Mona Lisa, who has worked for many years as a medical intuitive and physician, helps readers listen to their own bodies intuition and prescribes medical solutions that are based in Western science. They provide real-world examples of people who faced illness and outline the specific emotional and physical prescriptions that helped them heal.
