

After five years with a man she loved, Ariana Parker held divorce papers in hand. From the moment she met him, Nick was the only man to make her body burn and fill her heart with joy, but somewhere along the way, they lost their ability to communicate—in any language. Nick Parker lost the woman he loved to the trials of conception. Their inability to cope with their failure broke down their relationship and their friendship. And now, he's left with a woman he lusts after, longs for, and doesn't know how to reach. One locked door and plenty of time to hash out their problems will either leave them broken forever or might just be the glue that holds them together.
