

Blood Bound (The Godhunter Series) (Volume 16)

Pregnancy is hard on any woman but for the Godhunter it presents a unique set of problems. Like literally burning indigestion, magically induced mood swings, and overprotective alpha males. Then one wrong decision sets Vervain down a catastrophic path and singed furniture becomes the least of her concerns. With bloodthirsty enemies breathing down her neck and a volatile dragon baby growing within her belly, Vervain must find a way to save the future... by venturing into it.
