

Ursula: Then and Now

For Ursula Lange life isn't a circle, it's a spiral. Her dream of a career in computer game development and marriage to her seemingly dependable boyfriend Jack are enlivened by friendship with Robbie; an outgoing, mercurial, budding con-man who takes her on as a sort of apprentice. Her life seems charmed, no matter how daring their pranks and misdemeanors, Robbie always has her back. Until he and his pregnant wife move to England, leaving Ursula alone with her cheating boyfriend. Twenty years pass. Ursula is a single mother working a dead-end job. Responsibility has taken the place of dreams. Then Robbie stumbles back into her life needing a favor of a less than legal nature. What begins as a simple data-breach turns into murder. With Ursula as the prime suspect and Robbie nowhere to be found.
