To win her heart, he'll have to touch off her internal combustion. Even after ten long years, Frankie Sepkaskis' success as the best vintage car mechanic around still hasn't overcome her teenage rep as a promiscuous troublemaker. No matter how tempting the prospect, the last thing Mac Galbraith needs is for her to take him out for a spin. Especially since his family thinks he should be looking for a prospective wife among the local socialites, not slumming with a grease monkey. Mac likes vintage rides, but buying a new one every month just to have an excuse to see his ridiculously sexy mechanic in her overalls? That's pathetic. When she finally says yes to his date offer, he's not fooled. It's only because she has every intention of using him to indulge her fantasies then walking away. But Mac knows something else: underneath her bad-girl persona is a woman worth her weight in lug nuts. It might take a crowbar to get her to admit she has feelings for him, but he plans to put the pedal to the metal to convince her to keep him around for more than just a test drive. Warning: Sweaty, down-and-dirty sex between a mechanic and her best client. Read at your own risk. Dangerous curves lie ahead, and these roads are slippery when wet.
