

The Modern Heroines Journey of Consciousness (The Awakening Consciousness Series Book 2)

Every woman is her own heroine. Every female is part of the grand journey of rising consciousness and rising feminine power on the planet. Becoming your own Modern Heroine is a journey as unique as you. From becoming an entrepreneur, to giving birth, to embarking on a weight loss diet, or making a life-changing decision to move abroad and start over, you have everything you need to answer the Call of your Soul and trust the adventure. And that means questions come up along the way, such as: What about the spiritual growth in this experience? How are you able to expand your personal consciousness through this unique journey? How does the archetypal heros journey relate to our crazy-hectic-busy lives, contemporary choices, and a quest for modern spiritual growth? Notably, the journey of spiritual growth is different from the visual, physical, public heros journey we typically recognize in movies. It is different for every person and for each woman, yet there are also common themes and stages that make spiritual growth an archetypal journey. Referencing Joseph Campbells highly influential the heros journey alongside her bestselling memoir, Molly McCord, M.A., asks the reader to reflect on their own life journey with consciousness-raising wisdom and insights.

The Modern Heroines Journey of Consciousness offers an original exploration through 11 phases of spiritual growth, from answering the Call of her Soul and Opening Up To A Greater Power, to Surrender, Awakening to Deeper Soul Power, and Mastery of Her Consciousness. Inspiring, original spiritual concepts include: - Differences between spirituality and religion - The five types of consciousness on the planet now - The Elevator and the Spiral - Soul Mates, Soul Contracts, Soul Agreements, Soul Groups, Karmic Relationships - Past life connections to geographic locations -

Surrender and supreme separation from God - Being conscious in an Unconscious World - And more a-ha connections and breakthroughs for conscious living The Modern Heroines Journey of Consciousness brilliantly explains the gifts at every phase of spiritual growth and reveals how the inner journey is an awakening to more of her Soul self. The second book in The Awakening Consciousness Series is a must-have guide for any contemporary seeker who is curious about their spiritual journey.
