

Dragon Heart: Paranormal Shifter Romance (Elise Ddraig, Dragon Chosen Book 1)

Being the Dragon Chosen isnt all fun and games... Last year I was three years old. Now, one year later, Im nineteen. Mostly. Magic, got to love it. My father is the King of the Gold Dragons Archer Ddraig. My mother, the Queen, is Jennifer. Oh and my other father is First Knight of the Realm Logan. Yeah two dads, one mom, I know Im weird. Or special. I prefer special most of the time. Except right now. Lous my bodyguard, best friend, and if Im being honest, my ongoing crush. He has dark, wavy hair, wide, stocky shoulders and the most gorgeous face any man could ever have. Strong jaw, just the right amount of beard line, sharp nose, and the bluest eyes Ive ever seen. Hes everything that makes a man sexy. Right now I cant control my magic, I dont understand my suddenly adult body, I have no friends, and somehow Ive managed to piss off the King of the Werewolves. Oh, all while facing off against a necromancer thats threatening me and those I care about. Being the Chosen One sucks and Im pretty sure this is just the beginning.
