

The Life and Loves of April Johnson

One ordinary woman, two extraordinary hunks. April Johnson is just a regular woman, taking one day at a time, who always manages to get into sticky situations. At her high school reunion April's life changes forever when she finds herself falling for Richard Slick, nerd turned hunk. Matters are only complicated when Marcus, the man who broke her heart in high school and who's now a big time actor, makes a stunning declaration. April lands smack in the middle of a love triangle and must decide between these two studs. Her choice leads to heartbreak, the discovery of her self-worth and learning that it just might be possible to love two men. Some lessons are worth learning.
