

No Details: The Only Exception Novels

*This is the short story version that was originally published in the Novel Grounds Anthology All Our Love. Cheney Reid has graduated college recently, and is preparing to accept her role as a responsible adult - once she decides which job offer she will take. And, oh yeah, after a wild Vegas Road Trip with her girls. Starting point, Birmingham, Alabama. Mission: traveling through cities all over the country, doing a slow crawl through music festivals, and being completely free and quite possibly reckless one last time. Final destination: the iHeart Radio Music Festival in Las Vegas, Nevada. Cheney loves adventure and will try everything once. Not much scares this chick. The one thing that terrifies her more than anything is being cheated on. There's an easy fix for that issue - make a rule and stick by it. Cheney's Infamous One Rule: No dating men met in a bar. There is just one tiny problem with that rule. What happens when Mr. Right walks into the wrong place? You make an exception. For Cheney, she bends her rule, allowing Ace, the hottie with the perfect...everything, to know some things about her, general information, but no details.
