

Renee's life had been normal until the shadows reappeared and the legendary stone was sent to her. As the arrival drags her further into the paranormal world, the last thing Renee expects is to be swept off her feet by a brooding werewolf. Yet Coran captures her heart and attention. Small problem—he doesn't want a mate. Coran still suffers from the loss of his first mate, but when Renee is attacked by shifters he is forced to protect her at all costs. Things heat up when he realizes fate has wickedly granted him a second chance at love. With the war causing the body count to rise, now is not the ideal time to find a mate. The Circle is becoming desperate and something has Lucius worried which means trouble for his followers. It's a dance between danger and fate in this second installment of the Dark War Chronicles.
