

Discovered: Eternity's Embrace Series, Book 1

A gorgeous vampire, reincarnation, and a discovery of magic. When Isabela is rescued one night by a handsome vampire, her reality is shattered. She wanted answers to her questions, but what Constantin reveals to her goes far beyond her wildest imagination. Can she trust a creature that killed someone to save her? Is it possible that she's met him before, like he claims? This 7,100+ word erotic romance short story is the first book of a three part series, containing explicit content intended for mature audiences only. Excerpt: Isabela paced in the small patch of moonlight on the street. The body had long since been removed. I wonder if maybe werewolves came by and took the body? She chided herself for getting distracted with ridiculous thoughts again. Just because vampires apparently exist, doesn't mean everything else does too. She wondered if the steel gray eyes were near. She didn't feel like anyone was watching her yet, but she hoped he would show up soon. She was getting cold and impatient, mad at herself for thinking this was such a brilliant idea. The street was pitch dark, there was only one street lamp and it was at the corner half a block away. It gave out no light whatsoever. Good street for a mugger, she thought, snickering. She watched her breath fog the air as she exhaled, tapping her feet and moving around, trying to keep warm. Suddenly, she felt a prickle all over her body. Something was out there, and getting closer. She marveled at the clarity with which she could feel that sort of thing.
