Mischievous elves. Life-sized snow globes. Evil Snowmen. For Kaylie Hart, the town of Merry is a holiday nightmare. When Kaylie and her friends roll into town, they are just looking for a quiet place to get some rest. Maybe some good food. They certainly aren't looking to fight supernatural creatures. But evil finds Kaylie whether she is looking for it or not. People have been disappearing from Merry without a trace and no one seems to care. That's about to change because Kaylie is determined to find them. If she's going to solve the mystery, she won't just have to survive a potential supernatural attack- she'll have to survive a storm of holiday spirit. Oh yeah, and the evil snowmen. Merry Souls is a special holiday novella set in the Dark Souls world. It's a short read- 8,000 words of humor, adventure, and fun.
