

Fang Chronicles: Mandys Story (Volume 4)

Mandys Story is a standalone, humorous and little bit kinky side story to the Fang Chronicles series. Every beastkind knows you dont mess with a Kodiak beareveryone that is except Mandy, the wolf-pack Alphas sister. When Mandy hears whispers that the bad attitude bear, Honey, has chosen a mate, she takes matters into her own hands because her wolf decided months before that Honey was hers. If drugging, kidnapping, and making him live in a feral cage wont work shes planning to give Honey a little bad attitude of her own. The bear clan is ferocious, deadly, and their fighting skills coveted by other beastkind. With war on the horizon, Honey has little time for games or courting much less more than a few grunts of acknowledgement to a young she-wolf who seems to be everywhere he looks. When he wakes up in a feral cage at the hands of that same exasperating she-wolf all bets are off. If anyone thought bears and wolves dont mix, theyve never seen Mandy on a mission. She refuses to give into the sexy he-bear when he tries to seduce her out of her tight little assets and himself out of the cage shes locked him in. Two can play that game and in the end Honey will learn, they both need to win, or else.
