

Just Say Yes (Just Say Yes series Book 2)

This is book two of three for characters Zoey and Andy. After an accident lands Zoey in the hospital, her life, once again, takes a turn in the wrong direction. Andy starts acting differently and won't talk to her about what is bothering him. He's distant and broody, and the closer it gets to Zoey's upcoming vacation, the more unsettling Andy's behavior becomes. Once Zoey leaves for vacation, life doesn't get any easier for her, until she begins to volunteer at a local horse ranch. There she meets Josie, a former therapist, who spent her career helping orphans. While she is working at the ranch, unbeknownst to her, Josie is helping Zoey better herself and heal. Zoey and Andy both realize they have issues from their troubling pasts that need to be dealt with during the month that Zoey is gone, and they agree to work on them. By the time she comes home, they've both succeeded at putting their previous tragedies behind them and are looking forward to their future together. On what should be the happiest day of their lives, Andy is completely blindsided by disturbing news from his past. While Andy is away and trying desperately to find out if the information he's received is true, Zoey suspects a life-changing situation that could either ruin her and Andy, or make them completely whole. Can their relationship survive Andy's devastation, or will their lives fall apart forever? Will Zoey find it within her newfound strength to hold them together?
