Navigating the Ship of You is a book about discovery, exploration and sailing the vast oceans of our lives. It is about journeying into the Unknown and returning and making it Known - by drawing maps and charting our experiences. It is about gaining an understanding of the art of self navigation in order to enhance and transform our lives. It is set in two parts. Part One examines the primary phenomena of the art of self navigation, namely the power of Thought and Language. Part Two contains stories of some of the encounters on both my own voyages and the voyages of some of those I have helped, guided and explored with and sailed alongside. There is no such thing as plain sailing, which is arguably the first thing we need to acknowledge. Life and its manifold circumstances serves up a vast and varied climate for our voyages and journeys, so our expertise and mastery of the Art of Navigation is of vital importance to our perspective, understanding and appreciation of what life in general, and our life in particular, is all about.
