What about issues like circumcision or water immersion (baptism)? What about various religious symbols like the cross or Star of David? Twenty-First Century. This publication has been long anticipated in addressing some of the finer-issues of Torah observance witnessed within the Messianic movement. It takes into consideration the theological and spiritual developments of the 2000s-2010s to be sure, but more importantly tries to present the necessary third way which must emerge for our Torah observance. This is crucial, as we steadily develop into a force of holiness and righteousness in the world, and strive to commit ourselves to further obedience.

Do we grumble because we do not want to be part of the Jewish mission? Secular learning and faith are not rivals each has its own concerns and addresses its own set.
