Jake Callahan has a problem, and the only people who can fix it are the guys with Pierce Securities. Except Jake needs a woman. Miriam Bartoli will happily play the part of a sexy woman to get what the client needs, especially since playing mom to an office full of alpha males and recent surgery has wreaked havoc on her femininity. Can she fight her attraction with the target long enough to get what the client needs? Or will this case of mistaken identity and clicking with the wrong man be the end of her?
