

Chefs Can Save the World

Chefs Can Save the World is Jeremy Barlows call to action for everyone who prepares, serves, consumes or simply enjoys food. We all have a responsibility to pay more attention to what we eat, where it comes from, and how it affects the world around us. Jeremys journey is a discovery of how our health, our environment, our energy, our economy, and our security are inextricably tied to the food system. And, with half of all food dollars spent on dining out, our nations chefs hold significant influence to effect change. Jeremy gives us the benefit of his experience and research in this book, getting at the heart of what we need to know to start making better choices. Jeremy challenges us all to use our purchasing power to achieve a food system that is not just sustainable, but restorative one that ultimately can solve the most pressing human challenges of our time.

Title: ChefsChefs Can Save the World is not the book youd expect from a chef, but a deeper and more serious work, more like a manifesto of social reform that arises out of environment. These are 11 chefs saving the world with food. Herve This isnt technically a chef, but his work could legitimately end world hunger. This is aAs an experienced chef himself, Will Nicholson is better placed than most to engage with fellow chefs about the issue of sustainability in the professional kitchen. On an unconventional panel of researchers, chefs and practitioners, Line the art of eating well can enhance environmental stewardship. Chefs are the most qualified people on the planet to talk about food, not only in terms of flavors, but in the chemistry behind the ingredients they
