

Diana and the Gypsy

July 1492 - Diana, one of the Trouble Twins with her brother Will, has spent her early years in one scrape or another ... until she was 13 and the king required her to attend Elizabeth Woodville, the dowager queen. When the dowager decides to spend her remaining years in an abbey, Diana has no choice but to go with her. Now, freed from her obligations by the death of the dowager, Diana is determined to make up for lost time with one last grand adventure. Davi, gypsy horse trader and destined to become Rom Baro, leader of his clan, has known Diana since she was born. But the only thing he remembers about Diana is how she and her twin plagued his life with their pranks. And it isn't long after Diana returns from the abbey that he realizes that she is still determined to plague his life but this time as a woman grown.
