Happily ever after isn't always easy. Helen and Liam are engaged to be married and their relationship is stronger than ever. But when Helen encourages the young doctor to mend fences with his estranged family before the wedding, she unintentionally opens a dangerous can of worms. A devastating secret from Liam's past emerges, threatening to tear him apart. The horrors of his family skeletons make him feel that it is a huge mistake to try to start a new family with Helen. Unable to cope, he pushes everyone away, including his fiancée and even his best friend Owen. Now Helen must do all she can to save the man who has saved her so many times. Liam has put himself on the line to help her heal in the past, and she hopes to do the same if she can even get close enough to try
