

Warning: Heat level - High Ellis Rae Morgan is being married to the highest bidder. Life shouldn't be too bad with the one she's chosen. She'll be the pampered show-princess of a wealthy man who doesn't have a preference for females. Unfortunately, her new husband doesn't simply ignore women, he has a hidden perversion strong enough to harm them. Alpha wolf Duggan Baddeaux knows his neighbor's new bride is destined to be his pack mate. Duggan takes what he wants, no holds barred. And he wants Ellie. But he struggles to control the violence within. Ellie is used to the pampered life, not constant sex and aggression. How can she possibly feel desire for the monster responsible for kidnapping her from her husband? Perhaps she needs to be initiated into his world slowly. His brother is a patient, more gentle teacher. An apt pupil, Ellie will be shared by wolves.
