

Curse of Stone (Counting Curses)

Some curses aren't meant to be broken. Julia is depressed. Ever since her mom died, it's been hard for Julia to enjoy life, even when she's spending a year studying in Rome. But when an ancient curse attaches itself to her, Julia realizes that she isn't ready to give up. With the help of Fernando, a too-charming-for-words guy from her art history class (and the heir to a black market antiquities business), Julia feels like she might have a second chance at everything. But time is running out, and the curse makes it a matter of life or death. Can Julia and Nando break the curse, or is it already too late?
