

Taking Polly : A Secretarys Sensual Encounter with Her Boss (Office Surrender Book 4)

Pollys never known the thrill of being with a calm, sensitive and commanding lover. Other than in her dreams. Pollys administration role at Blakemore-Green suits her perfectly. Regular hours, an office of her own and a chance to use her super-organized mind. A little dull, perhaps, but shes always been the kind to avoid too much excitement. Since her husband deserted her a year ago, shes concentrated on getting the little things right and avoided any sense of adventure. William Blakemore owns the company, and he needs his secretary to be a little more alive and a little less focused on work. He needs someone who can serve him in ways that Pollys only ever fantasized about. When her annual review comes around, he books a private room and an afternoon to train Polly to take him in the way he expects. Polly discovers that city men get what they want. Carefully and sensually, William takes all that he wants from Polly and makes sure that working together will never be quite the same again.
