

Break of the Moon: A Paranormal Werewolf Shifter Romance (Broken Alpha Book 1)

Rose innocently believed her life was perfect. She had it all: a job she loved, a beautiful home, a fiancé who was prince charming himself, financial stability, and a caring family. Rose Greyback's life was a dream, and nothing could wake her from it.

Beckett is on the run and ready to take down anything in his way. Beckett Abruzzi was on the fast track to becoming Alpha of the infamous Adolfo Pack until the once-defunct Del Diavolo Pack stages a violent uprising. Against all his instincts, he forces himself to lay low while he plans his revenge. But they're not giving up so easily, and Beckett is running out of places to hide. The last thing they expected was to crash. Relying on a total stranger who couldn't be more different than them was never in the plans. But sometimes, fate has a way of changing things for the better, even if it's in the form of an unassuming bride-to-be unintentionally saving the life of one vengeful Alpha, who belatedly realizes she is much more than what she seemed to be.

EXCERPT

On the floor, Beckett's ears perked up. Soul mate. A life mate, a female wolf that would walk a thousand miles to see her mate again, a male that would kill for his female and more. There were always stories about the mates who found each other after a lifetime spent searching and how the passion between them was so strong that everything else faded in the face of it. He had thought that he had found that in Nyha and he had been seriously mistaken in that.

But what if he had just chanced upon his mate?
