Chase is a performance poet with a history of mental illness who's spent time in jail and hospitals while trying to deal with traumas from his past. A cult figure in New York City, he's as well known for his mania as he is for his poetry. During a reading, Chase sees a woman he believed had died on the ward due to the cruelty of a brutal guard; is she a hallucination, a ghost, or a killer who faked her own murder? Chase tries to battle his own demons, dementia, and insane desires long enough to face up to his heinous enemies before they destroy what's left of his mind.
